KCC Football supporting Christian Action and Hong Kong's Refugee Children

By The Football Section Committee

With great support from Chirag Nainani, one of our KCC Members and U18 YEP Players, the Football Section is proud to be again providing football coaching to Refugee Children via the local Charity "Christian Action," over the summer of 2024. We aim to provide weekly sessions for the kids to take them briefly away from their very restricted existence, whereby the families they come from are living way below the poverty line. With the avenues to legitimise their status very limited, many people within Hong Kong society are now engaging in initiatives to promote their empowerment and give them a sense of purpose, as short-term relief to their precarious existence. Chirag's voluntary work alongside an authorised representative of the Charity has extended beyond the programme that KCC Football supports, by offering various educational based classes as well to support their development and integration into society. In Hong Kong, the refugee kids are allowed to attend government schools and are subsidised by the Education Bureau, but they still need assistance with school uniforms and books etc. Chirag has also assisted with interviews and preparation for possible scholarships at some of the City's International Schools. Further supporting

those who can attend school, Chirag has created a homework helpline.

For anyone willing to assist us in our support of local refugee's, please don't hesitate to contact the KCC Football Section or Christian Action direct, via the link below, for more information. In the meantime, we share a massive thanks to Chirag for the amazing work he is doing with this underprivileged group in our society and we are very happy to be playing our part as well on the Football pitch!
